***Besides, he's really cool**

You want an EXPLOSION of fun at your next fair? GREAT, send your event into orbit with ROCK-IT. This 9 foot tall body puppet really knows how to shake, rattle and roll. Under his multi-colored exterior beats the heart of a true party animal. Not only can ROCK-IT shuffle to his own music pumped plentiful from an on-board music system, he'll sing, serenade, and pantomime for the crowds. He'll have them eating out of his massive articulated hands as he throws down to a hip-hop tune or does his own robo-boogie-get-down dancin'. And when the beat dies down, ROCK-IT will talk his way into the crowd's heart with his amazing selection of voices and sound effects.
